

## Orthodontic Treatment Payment Options

We are proud to have an inclusive fee without hidden charges. **Interceptive treatment** fees include records, placement of appliances and all associated appointments. **Full treatment** fees include records, placement of appliances and all associated adjustment appointments, removal of appliances, one set of retainers and one year of follow-up visits.

### **Option #1- In-House Financing**

This option requires a down payment PRIOR to the placement of the orthodontic appliances, with the remaining balance paid in monthly installments over the course of treatment. Accounts must be paid in full before the end of treatment. This option requires an automatic draft of the monthly payment from a debit or credit card account, with a choice of either the 1<sup>st</sup> or the 15<sup>th</sup> as a draft date. Please fill out and sign the attached form and bring it to the banding appointment.

\*Patients utilizing flexible spending accounts may make special payment arrangements if necessary.

### **Option # 2 – Payment in Full**

Patients opting to pay the account in full within the first 30 days of the appliance placement will receive a 5% courtesy off the patient portion of the case fee. Payment must be made within 30 days of the contract date to qualify.
